

Small footprint, solid design and a variety of component options make the KIOSK Edge ideal for all types of applications.

THE KIOSK EDGE SERIES

THE TRANSFORMER ENCLOSURE

The Kiosk Edge Series provides an enclosure form for a wide array of platforms and configurations. This model is available in a thin or full standalone model, as well as a compact countertop version. Many clients utilize both the countertop and pedestal options in the same deployment to accommodate varying application needs and location space constraints.

With a space saving footprint, solid design, and multiple component options, this kiosk is ideal for Retail, Human Resources, Check-in, Order Entry, and many other self-service vertical market applications. The Edge combines a sleek profile with high durability to withstand the rigors of daily public use.

The KIOSK Edge can be configured and branded in many ways to maximize the impact of marketing messages and corporate image. The standard 19" LCD effectively spotlights the application being offered to the consumer. Custom colors and kiosk artwork are available to uniquely reinforce marketing messages and corporate branding.

The range of component options includes printers, scanners, card readers, cash acceptors, cameras, biometric devices, and wireless options. The Edge series combines the economy of a standard enclosure with peak configuration and form factor flexibility - the ideal self-service solution mix!

Reliable and tested components.
